KYOTO

Kyoto was inspired by the simplicity of Japanese design mixed with the luxurious texture of shagreen.
These simple silhouettes are covered in rich shagreen-embossed faux leather, a reproduction of the texture of natural stingray hide.
Then finished with a dark wood, like the ancient Japanese technique of scorched Shou-Sugi Ban and elevated with inlaid brass detailing.

MAXIM

The Maxim collection is inspired by the luxurious refinement of the 1930's but brought into the 21st century by its more modernist form. The embossed leather is a reproduction of the texture and subtly complex pattern of natural stingray hide, then finished with a lustrous satin brass trim detail. Maxim complements perfectly a contemporary luxe scheme.

EMERSON VELLUM

A collection of exquisitely decadent and art deco Emerson Vellum. No two pieces will ever be identical with this wonderfully natural product. Vellum's exceptional properties give it an aura of glamour, softness, and enduring luxury. MAYFAIR

Inspired by Campaign furniture, historically used for military campaigns and long tours of the new world, and is evocative of luxurious travel from a time gone by. The Mayfair range is differentiated by the ebonized and lacquered finish which contrasts against the luxury brass pulls and corner decorations. It's the smaller details that elevate this classic style to a more contemporary look.

SOHO

A collection for the 21st century home, a modern, contemporary collection of dark rich veneered furniture incorporating beautiful, matt polished brass coloured stainless steel for the frames and legs. Soho is an atmospheric collection for the more daring interiors. The deep brown finish on the wood really sets off anything placed with it, and looks great with tones like amber and copper.

DISTRICT

Inspired by mid-century designs, the District collection balances clean, architectural lines with natural textures.
The mahogany-tone wood warms the pieces and the antiqued brass detail adds a touch of shine and elegance.
It is the texture and pattern of the wood itself that makes this collection so understatedly stylish and unique.

HOXTON

Our Hoxton collection's main feature is the diamond-shaped frontage, finished with subtle aged brass knobs. This Geometric marquetry is an ode to mid-century modern; they are pieces that create simple focal points, and don't need a lot of accessories to make them work. The pattern play does all the talking.

Handmade mango wood cabinet with beautiful rattan doors in a simple yet elegant design. The finish is made of high quality lime colors, making great to mix with other soft tones or also bright exciting colours. Its origins lie in classism but that doesn't define it. KERALA

An elegant bedroom range of hand-studded upholstered furniture. Expertly handcrafted from mango wood and upholstered in a natural linen then finished with the hand-studded geometric design, produced by using hundreds of brass coloured studs. The significance of the interlocking circle is as beautiful as the design itself, representative of community, love and support; as well as infinity and eternity. The four poster bed is arguably the star of the show, but sat together or apart all pieces are so wonderfully luxurious.

GUSTAVIAN

Often used in Swedish royal palaces, the Gustavian style dates back to the 1780's. This style of furniture was influenced by the Rococo Style, and thereafter the Neoclassic Style. The pale hues of white, grey, and cream colours and elegantly worn patina turn these Scandinavian furniture pieces into classical elements and the distressed and slightly textured finish brings antique charm and ensures each piece is utterly unique. Each piece is individually hand carved and hand finished.
