OUTDOOR-INDOOR RUGS

Why rough it? Create an open-air sanctuary with our durable outdoor rugs, which are dual-purpose and easy to clean – simply hose off with water. These animal- and party-friendly rugs are an excellent choice for indoor living too.

ABSTRACT RUGS

Artistic expression finds its way to the floor with our alluring range of abstract rugs. Showcasing everything from vibrant brushstrokes and Impressionist flair to textured, single-toned accents, this selection features bold renderings that will lead the eye to the rug itself, or more subdued offerings that serve to highlight other points of interest in a room.

RUG FEATURES **EXPLAINED**

Made of 100% polypropylene, fully outdoor rugs are hard-wearing and resistant to fading, water and mildew. They are easy to clean – simply hose with clean water. Perfect for parties, children and pets, fully outdoor rugs offer an excellent no-fuss solution for both indoor and outdoor use.

Made by intertwining strands of material, hand-braided rugs provide a textured, rustic appearance and are highly resilient.

An ancient, labour-intensive technique, where each knot is tied individually, resulting in a rug of exceptional quality.

Utilising a traditional loom, these rugs are woven by hand to create seamless designs and patterns, offering both durability and aesthetic appeal.

A blend of traditional handloom weaving and knotting techniques, these rugs are crafted with precision to deliver exquisite patterns and textures.

Crafted with meticulous attention to detail, hand-stitched rugs feature layers of fibre sewn together, resulting in unique textures and a distinct artisanal look.

Created by punching strands of yarn into a canvas, these rugs offer a plush feel.

Crafted using traditional techniques, these rugs are woven by skilled artisans, offering both authenticity and durability.

Machine-washable rugs can be cleaned in a washing machine at 30°C, making them perfect for bathrooms and bedsides. For best results, choose a gentle cycle and mild detergent. Never iron or bleach a machine-washable rug.

These eco-friendly rugs are made of material such as recycled plastic bottles, recycled polyester and recycled cotton.

Reversible rugs can be flipped over and used on either side. They feature double-sided designs that offer versatile styling options.

Undercover patio rugs are made of a polypropylene and polyester blend, making them hard-wearing and easy to clean, but a little softer underfoot and less resistant to fading compared to fully outdoor rugs. Suitable for covered patios and indoor use.
